

Gynaecological Awareness Information Network Inc.

Gynaecological Awareness Information Network (GAIN) is a not for profit organisation driving awareness and education on gynaecological health matters.

Many women afflicted with gynaecological conditions feel alienated and isolated. They often suffer in silence, afraid of what they don't know, and lack the courage to share their anguish.

GAIN was established to:

- Assist women to find the information they need to make the 'right' health choices for them and to provide support as they face these challenges.
- Encourage healthcare professionals to be more sensitive and responsive to the needs of women with gynaecological problems and the effects on their sexuality.
- Provide community education to promote awareness of gynaecological health, diseases and associated illnesses in the hope of early detection and proper diagnosis.
- Improve the efficiency and efficacy of resources available.
- Establish an Australian National Gynaecological Awareness Day
